ADVANCED INTELLIGENCE SEMINAR  
November 3, 1969 - November 14, 1969

Course Content

Selection of topics for this Seminar was excellent. All topics were relevant and efficacious in meeting the Seminar objectives.

The presentation of Mr. Parrott, DCI/NIPE was superior. He gave an incisive presentation of the many-faceted problems of evaluating Agency and Community programs as they relate to National Policy Requirements.

Methodology

The course consisted primarily of a presentation by a Speaker followed by a question and answer Seminar. I feel some method is needed to create more active participation by those attending, e.g., smaller groups, more background material.

Recommendation

Students should be given preparatory background reading prior to attending the course.

More reading or site visitations should be given, e.g., a walk through NPIC would be beneficial.

If possible, live problems should be presented to the Seminar(s) for solution.

Conclusion

I feel the Seminar was very successful in meeting its objectives.

This course gave me a needed insight into the highly complex world of Intelligence.

I came away with a much greater appreciation of the outstanding personal and technical qualifications of the Agency's personnel.
